

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, July 9, 2019 – 0530 MT
National Preparedness Level 2**

National Fire Activity

| | |
|-------------------------------|-----------------------|
| Initial attack activity: | Light (157) new fires |
| New large incidents: | 5 |
| Large fires contained: | 7 |
| Uncontained large fires:** | 11 |
| Area Command teams committed: | 0 |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 3 |

Nationally, there are 47 large fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Alaska Area (PL 5)

| | |
|--------------------------|---|
| New fires: | 3 |
| New large incidents: | 2 |
| Uncontained large fires: | 5 |
| NIMOs Committed: | 1 |
| Type 1 IMTs Committed: | 1 |
| Type 2 IMTs Committed: | 2 |

Shovel Creek, Fairbanks Area, Alaska DOF. IMT 1 (PNW Team 2). Twenty miles northwest of Fairbanks, AK. Timber and brush. Active fire behavior with short crown runs, isolated torching and backing. Numerous residences and communication infrastructure threatened. Evacuations, road and trail closures in effect.

Swan Lake, Kenai-Kodiak Area, Alaska DOF. IMT 2 (NW Team 13). Started on FWS land six miles northeast of Sterling, AK. Timber and short grass. Active fire behavior with spotting, torching and group tree torching. Numerous residences and structures threatened. Area, road and trail closures in effect.

Montana Creek, Mat-Su Area, Alaska DOF. IMT 2 (NW Team 12). IMT is also managing the Malaspina incident. Started on private land 13 miles south of Talkeetna, AK. Timber. Minimal fire behavior with smoldering, creeping and isolated torching. Residences threatened.

* **Malaspina**, Mat-Su Area, Alaska DOF. Started on private land 13 miles south of Talkeetna, AK. Timber. Moderate fire behavior with creeping and smoldering. Numerous residences threatened. Evacuations in effect.

Boundary River, Tok Area, Alaska DOF. NIMO (Portland). Started on Native Corporation land 37 miles southeast of Tok, AK. Timber and short grass. Moderate fire behavior with single tree torching, short-range spotting and backing. Residences threatened. Reduction in acreage due to more accurate mapping.

Frozen Calf, Upper Yukon Zone, BLM. Previously reported incident. Started on FWS land 25 miles northeast of Chalkyitsik, AK. Timber and hardwood litter. Extreme fire behavior with short crown runs, short-range spotting and flanking. Last narrative report unless significant activity occurs.

Hess Creek, Upper Yukon Zone, BLM. Started on state land 29 miles northeast of Steven's Village, AK. Timber and tall grass. Active fire behavior with wind-driven runs, flanking and backing. Residences and structures threatened. Last narrative report unless significant activity occurs.

Black River, Upper Yukon Zone, BLM. Fifty-three miles northeast of Circle, AK. Timber. Active fire behavior. Last narrative report unless significant activity occurs.

* **Three Castle**, Upper Yukon Zone, BLM. Started on Native Corporation land 29 miles north of Eagle, AK. Timber and brush. Active fire behavior with group torching, short-range spotting and flanking. Last narrative report unless significant activity occurs.

Caribou Creek, Fairbanks Area, Alaska DOF. Twenty miles northeast of North Pole, AK. Timber and tall grass. Minimal fire behavior with smoldering. Residences threatened.

*1 Hectare = 2.47 Acres

Predictive Services Discussion: Showers and storms will be possible across the Pacific Northwest, the western half of the Northern Rockies, and northern California as another weakening trough pushes inland from the coast. While lightning is expected, storms will be wet. In the Southwest, a strong southerly flow will develop and will begin to open up the door for a more sustained surge of monsoonal moisture to come up from Mexico. While it will take a few days longer for it to arrive, the mechanism for it to get here will finally be in place. In Alaska, a frontal boundary will set up along the northern Gulf coast and extend east into the southern Yukon Territory. A breezy and cooler northwesterly flow will be present across the interior. However, scattered storms are expected from the southwestern Interior to McGrath in the southeastern Interior.

Working with Helicopter Drops

Aviation Category

Consider the following questions when you have a helicopter with a bucket working in your area:

If the helicopter is a Type 1, increase the distance of standby place from the drop zone.

Use helicopter drops to knock down or secure a fire area that poses a direct imminent threat to escaping control lines or climbing up ladder fuels.

- Do you have good communications?
- Does the pilot have a clear understanding of the target?
- Are trees and snags in the drop zone?
- Are ground crews clear of the area?
- What are the winds doing?
- What is the turnaround time for the helicopter?
- Are people on the ground aware of the effects of the helicopter's rotor wash?
- Give feedback to the pilot about drop accuracy. Be honest and constructive.
- Be aware that helicopter performance capabilities may be significantly reduced at high altitudes and/or high temperatures.
